Privacy Policy

The MyASUS mobile application developed by ASUS respects the privacy of its users and is committed to protecting personal information. The application may collect basic information such as the user's name, email address, and device details in order to provide better services and improve the user experience. This information is used only for account management, device support, and application improvement purposes.

The application ensures that all personal data is stored securely and is not shared with unauthorized parties. User information may only be used for technical support, software updates, and service improvements. Proper security measures are applied to protect the data from loss, misuse, or unauthorized access.

Users have the right to control their personal information within the application. They can update or remove their information through account settings. By using the application, users agree to the privacy policy and understand that their information will be handled responsibly and securely.
